 Additional note: For the purpose of determining the Fees, annual revenue should be calculated in accordance with the Australian Accounting Standards Board (AASB) or other generally accepted accounting principles such as the International Accounting Standard Board (IASB) which complies with the relevant accounting standards in the countries involved. Annual revenue shall include all revenues earned by the Client from the sale of goods and/or services net of any discounts, allowances or returns in the preceding financial year.
 Where Client has failed to specify annual revenue in the PP-F001 PCCP Initial Application for PCCP Accreditation document, the Fees will default to the highest annual revenue category. Where such documentation is not available publicly, it will be treated as Client's Confidential Information in accordance with the Verification Services Agreement.
- (4) Last full financial year figures acceptable.

- (9) International audits will include the travel expenses on top of the audit fees which will be shared between multiple audit companies.
- (10) Where clients require Purchase Order Numbers to be incorporated on invoices for PCCP services rendered, they need to be supplied at the time-of-service engagement to avoid delay in service. Non-supply of Purchase Order Numbers may result in withholding Supply of Service unless an alternative arrangement has been made.
