

## DOCUMENT PP-D009

### PAINTING CONTRACTOR CERTIFICATION PROGRAM SHEQ CONSULTANTS

*Editorial Note: This version of the document removed M. Masgai and added new consultant K. Sugars*

The purpose of this document is to assist potential Accredited Contractors to conform to the requirements of the Scheme in relation to quality, safety, occupational health and environmental matters (SHEQ).

It is a requirement of PCCP accreditation that Contractors operate under an integrated management scheme that details policies, procedures, documentation and records which will ensure the organisation is in control of its SHEQ activities. People or organisations with little or no background in, or knowledge of such management systems often do not know where or how to start establishing their new system. Sometimes, in-house developed schemes miss the mark completely or omit key sections or take too long to establish. For further details on system requirements refer to PCCP Document PP-D001.

Selection of a consultant to deliver these services is important. Making the wrong selection can tie the contractor down with unnecessary paperwork and overly complex systems whereas the right consultant will develop a system that gives you effective control over the key aspects of your business at an acceptable price AND satisfies PCCP requirements.

PCCP Accredited Contractors with positive experiences of SHEQ consultants have nominated to PCCP those listed in the table below. PCCP welcome further additions to this list from the Accredited Contractor community. Please refer to the additional notes following the table, below.

| SHEQ CONSULTANTS               |                    |  |   |
|--------------------------------|--------------------|--|---|
| Organisation                   | Contact name       | Activity area  | Contact details   |
|                                | Mr. Kelvin Sugars  | Adelaide based<br>National coverage                        | M 0402 217 457<br><a href="mailto:kasugars@gmail.com">kasugars@gmail.com</a>  |

## DOCUMENT PP-D009

### PAINTING CONTRACTOR CERTIFICATION PROGRAM SHEQ CONSULTANTS

**Important Notes:**

1. *Although PCCP is aware that in the past, the people and organisations listed below have delivered satisfactory services to clients, such successful outcomes are critically dependent on the relationship that is established between the consultant and their client. Consequently, it is of vital importance that any potential Accredited Contractor determines to their own satisfaction that a successful relationship with their chosen consultant can be established.*
2. *PCCP or its officers does not in any way warrant or guarantee that the choice of a consultant from this list will result in any successful outputs or in PCCP accreditation.*
3. *PCCP confirms that there is no link between PCCP or CSIRO (as managers of PCCP) and the consultants listed below.*
